

## How will I get a hold of my child if they do not have their (a) phone?

Here is the phone number of your child's assigned chaperone. You can use this number to contact your child during the trip or in case of an emergency.

Please look at the schedule before contacting the chaperone to make sure it is not during a session. Of course this does not apply to emergency situations.

<b>Chaperone Name Here</b> Phone:	Student #1 Student #2 Student #3
--------------------------------------	----------------------------------------

Personal electronic devices will not be permitted in any session or meetings. They must be left in the room. The only time electronic devices are permitted outside the room is during our afternoon free-time trip on Friday. If found otherwise, the electronic device will be confiscated and returned to the student at check-out on Saturday.

### Free Time on Friday

There will be an afternoon free time between morning and evening sessions on Friday. In that time, we will have lunch, leave the hotel for a fun activity and dinner. After, we will return for a time to relax before our evening session. Students will be accompanied by their assigned chaperone at all times. They will also have access to their phones so that they be contacted during that time.
